

FORM

Form. syn.Shape. "In the shape of, Being in shape"

Refers to properly constructed (well-formed) means of achieving good physical condition (being in shape).

The **FORM** range from Cryo Control is composed of three premium fixed pools **MADE IN FRANCE.**

Designed to meet the needs of **health** and **rehabilitation practitioners** as well as those of **athletes**, the cold baths in our FORM range allow cryotherapy to be practiced in **total or partial immersion.**

They offer users a **comfortable, safe** and **effective** means of recovery and care all year round.

FORM

Adequate recovery for every need.

The **FORM** pools are new generation **cold spas**.

These cold baths improve **physical recovery**, **soothe pain** & promote **venous return**.

They are also excellent complements to the hammam and sauna for a **hot/cold alternation protocol**.

These models have been specially designed for **medical**, **high-performance** and **rehabilitation centers** as well as **physiotherapists** and **sports doctors**.

It also perfectly meets the needs of **hotels**, **gyms** and **spas** for **wellness use**.

FORM cold baths are available in **3 versions**.

DUO

Performant

Compact

Ecofriendly

The perfect ally for health professionals and high-level athletes.

The CRYOPACK DUO is the cutting-edge portable cold bath designed for 1 to 2 people. Compact and practical, this pool offers the possibility of practicing cryotherapy in total or partial immersion anywhere and at any time!

Equipped with one of our most powerful CRYO UNITS, the CRYOPACK DUO guarantees efficient and autonomous cooling in any environment and at any time.

Depending on the options chosen, this pool allows optimal recovery in all circumstances thanks to its universal power supply (100/240 V 50/60Hz) and its UV water treatment.

Its inflatable cover will ensure that the temperature and clean water are maintained in all circumstances.

BENEFITS

- ✔ Optimal comfort & versatility of use
- ✔ Easy portability
- ✔ Efficient & high quality cooling
- ✔ Integrated water treatment & filtration.

RESSOURCE

Ressource. "Recharge your batteries, regenerate yourself....."

The **RESSOURCE** pool is a new generation model of cold bath **accessible to all**.

It allows you to benefit from the many virtues of cryotherapy such as **stimulating the metabolism, strengthening the immune system, stimulating blood circulation** and **improving physical recovery** in particular.

RESSOURCE

The New Generation cold spa

Efficient

Compact

Plug & Play

Thanks to its design, it fits perfectly into **indoor and outdoor spaces**. Its design allows for comfort of use alone or with several people.

It is equipped with a **high-performance cooling system, filtration and water treatment** for 24/7 use.

Made in France from innovative **100% recyclable & reusable material**, it is the result of a desire for **eco-design & eco-responsibility** while maintaining **high-quality technical properties**.

The unsuspected benefits of a cold bath.

Whether for an athlete looking to **boost their recovery**, or a wellness enthusiast wishing to **revitalize** themselves on a daily basis, the benefits caused by our cold baths are your ultimate allies!

Although **stimulating blood circulation, reducing edema and inflammation** are impressive benefits of cold baths, there are also little-known and equally significant benefits for your well-being:

Strengthening the immune system

Stimulation of metabolism

Improving mental resilience

Improvement of mood and resistance to stress

Reducing physical pain

Improvement of mental well-being

TECHNICAL

The cold bath is a tool allowing the practice of cryotherapy by immersion which provides the body with multiple benefits, physical and mental.
